LAY-BYS CHEERFULLY ACCEPTED

Hi girls and boys,

This week we travel to Rydalmere East public School,

With our exciting new programs and technology we are able to allow the students to interact with the human modules. We are able to show how the liver, heart and lungs react to smoking, alcohol and even coffee. With these latest modules the children can see for themselves how our organs react to these substances.

Next week we travel to the Bilingual school at Meadowbank.

See you in class.

from,

*Happy Healthy Harold*

Best regards
