Term 4 Week 11

From the Principal

Traditionally, the last week of term is a time to take stock of our progress and performance this year. I have been pleased with student performance, especially our improvements in NAPLAN and I am confident of strong results in the HSC. We have put in place a number of innovations this year such as Marsden Showcase week, Bridge to Employment and the future directions programs for Year 10. Robotics, closer connections with our community and partner primary schools through sport and curriculum days, and GATS activities including the Science club, showcase an improved Pinnacle teaching and learning model. The development of a Pinnacle class in Year 7 next year will also strengthen the focus on GATS education. We have been successful in our focus on literacy, with lots of effort going into up skilling staff and putting in place Literacy support programs. We have overhauled the student representative structure and training and formed a partnership with Ryde Bulls basketball, which gave us an improved playing surface and new backboards on our outdoor covered learning area. We wrestled well with LMBR and the new software systems for managing school business and finance and now have a better understanding of how to use these tools. Our school marketing team has been very busy and successfully showcased a number of students at Marsden and their wonderful achievements.

I must acknowledge the work of all the staff at Marsden throughout the year; their work has been outstanding.

Best wishes for the festive season and we look forward to working with Marsden students again next year

Gus Vrolyk
Principal

School holiday dates:

Term 1

Yrs 7,11 & 12 start Wed 28 Jan

Yrs 8,9 & 10 start Thur 29 Jan

Last day of term Thurs 2 April

Term 2

Students start Tues 21 April

Last day of term Fri 29 June

Term 3

Students start Tues 14 July

Last day of term Fri 18 Sept

Term 4

Students start Tues 6 Oct

Last day of term Wed 16 Dec

**Our next P&C meeting is on
Tuesday 24th February in the
Library at 7:30pm**

Uniform shop News

Last day the Uniform Shop is open for 2014 will be Thursday 11 December 2014. The Uniform Shop will be open every morning the first week of school 2015. Tuesday 27 January to Friday 30 Jan 2015 inclusive 8.30am - 10.30am

Credit card purchases will now carry a 2% surcharge

Deborah Blumenfeld

Reflections on 2015

2015 has been a year of building relationships within the school as well as in the wider community for Marsden High. Our Bridge to Employment program has seen us develop strong links with Johnson & Johnson, Macquarie University, Northern Sydney Institute of TAFE and 2realise a not for profit organization. The benefits of this program to our Year 10 students have been far reaching, as they have had many experiences coordinated by these organisations that are not available to other schools.

Macquarie University is a particularly supportive partner to Marsden High School. They have facilitated a staff development day to provide current information to staff about university entry and the variety of courses on offer; study skills, orientation programs and gifted and talented support for Year 10 students; a dedicated university experience for Marsden Year 11 students and free tutoring each Tuesday afternoon for Year 12 students. Their psychology students have also been involved in designing activities for Marsden students around career opportunities and coping mechanisms for senior school. The support of the staff and students at Macquarie University throughout 2014 has been a huge advantage to our students and it is a relationship that we value tremendously.

NSW Police have been another good friend to Marsden High School in 2015. The local Police Liaison Officers have been involved in many programs with our students that have had quite an impact. The Police were very supportive of our Ready for Work program that targeted our Year 11 Persian students, so that they could develop a trust with the local police officers. Last week they facilitated a presentation about White Ribbon Day where the Year 10 students took a very moving pledge to speak out if they were ever aware of violence against women. To have the police as partners in schools gives students a sense of the trust they can place in the police, and the realization that they are there to help and protect them. Our students were particularly moved when one of the female officers became very emotional when talking about violence against women. It brought home the seriousness of the issue as well as the impact it has on those seeing it first hand.

Every teacher in our school is dedicated to seeing our students perform to the best of their ability. I would like to make special mention of a few activities that we can overlook at times, but that make a huge difference to our students. This list is by no means exhaustive as hundreds of activities happen every week, but I would like to make special mention the following:

- ❖ Mr Leece and Ms Hoy for making roll call such a useful, supportive and fun time for the students in their care, as well as organizing many excursions throughout the year to cater for the needs of their groups as part of our Year 10 extension programs.
- ❖ The Year Advisers, Ms Mo, Ms Sharma, Mr van der Heide, Ms Dalal, Ms Samuel and Ms Train for the extra care and attention they give the students in their care and for the excursions and activities that they have organized for their year groups. An honourable mention to our new recruit for 2015 Mr Kelly who has already been active in the role.
- ❖ The many many teachers, too many to mention, who tutor the students in their lunch breaks and holidays with special mention to Mr Sarroff, who spends countless hours with groups of students.
- ❖ The Physical Education staff who organize countless games, knockouts and regional competitions so that our students have the benefit of this competition.
- ❖ The SRC teachers Ms Bernyk and Ms Swinkels who organize countless activities, prefect elections, camps etc for our students.
- ❖ The Duke of Edinburgh teachers Mr Kelly and Ms Campbell who give up days at a time to take our students into the bush to teach them new skills.

- ❖ Ms Fevzi and Mr van der Heide who take the students overseas (and fill out 90 pages of forms – no I'm not exaggerating) and interstate to make History come alive.
- ❖ Ms Idrus who puts in countless hours before and after school and on weekends to ensure that the students get every music opportunity she can fit into the year.
- ❖ Ms Smith who works tirelessly with our indigenous students and Mrs Zahedi who does the same for our Persian students, to make sure both groups have every chance for success in their education.
- ❖ Mrs Brennan, Mr Hannah and Mr Charles who have given so freely of their time and expertise and honed up on their own skills to make sure that they can assist the students with their Robotics pursuits.
- ❖ Mr Simaitis, Ms Larsson and Ms Woodland for all the wonderful artists they develop and the art work that they bring together for our fabulous annual Art Show.
- ❖ Mr Bulgin for his many hours spent with students in conservation work on the dry creek bed at the back of the school, for teaching the students the joys of fishing and for always being willing to take them to his other classroom – Gibberagong Environmental Centre.
- ❖ Ms Nakhoul for initiating a number of special girls projects this year including Wrap with Love and the special Mums and Girls Day.
- ❖ Ms Lee for not only organizing all our students at Saturday school and Open High School but also for being on call when our Korean sister school visits and for giving our students the opportunity to be acting stars in the upcoming Department movie.
- ❖ Mr van der Heide and Ms Swinkels for introducing Australian Business Week to our school, and for all the work involved in getting this program off the ground.
- ❖ Ms Barui for organizing casuals from 6am each morning and for making sure that the school ran like clockwork.
- ❖ Mr King for organizing a number of primary school sporting visits to give our students leadership opportunities.
- ❖ Ms Matthew and Ms Nair for getting the Science Club up and running.
- ❖ Ms Hart for the countless hours she spends including on her days off to ensure that all Board of Studies entries are correct for all students.
- ❖ Ms Langelaar and Ms Knight for making the library a very welcoming environment for our students and for encouraging them to take refuge during breaks from the cold in winter and from the heat in summer,
- ❖ Ms Paczkowski and Mr Vrolyk for their long hours and leadership.
- ❖ and finally to the amazing
- ❖ School Administration Staff Ms Rust, Ms O'Neill, Ms Fabbi, Ms Bosman, Ms Moore, Ms Sandell, Ms Walden, Ms Watson, Ms Boukaseff, Ms Thompson, and Ms Muller who work tirelessly and cohesively to make sure that the whole school functions.

Best wishes to all the Marsden students and families for a happy and safe holiday. I will look forward to seeing all our students back in 2015 ready for another great year of learning.

Sheryn Symons
Deputy Principal

Australian Business Week comes to Marsden

Last week, Marsden High School held the inaugural Australian Business Week with our Year 10 High Achievers.

ABW has been held in schools and as industry training all over the country for the past 21 years. For the first time the week-long teamwork initiative has been held at Marsden.

Four teams of our Year 10 students formed their own simulated companies, allowing students to focus on running a small Cafe business, develop their own innovative product in a simulated business market, and compete against each other to gain greatest market share and the highest performance index.

The ABW program, based on an established computer simulation, requires students to make decisions on pricing, product quality, cafe location and size, as well as the amount of products being produced/bought and advertising and marketing strategies.

Congratulations all students involved and to our winning company, Fika (Swedish for coffee...). It was an impressive effort by all, and it was wonderful to watch individuals and teams grow over the course of the week.

A huge thank you to all who supported our Marsden Australian Business Week. We are extremely grateful to the many staff who gave their help including Ms Sheryn Symons, Mr Andrew King, Ms Cimen Fevzi, Ms Nicole Brennan, Ms Mini Mathew, Mr Bernard Dubria, Ms Alicia Hoy and Ms Garine Grigorian. Also, a huge debt of gratitude to our wonderful, patient judges from our MHS P and C - Ruth McConnell, Andrew Dismorr and Marlicia Travis.

Ms Swinkels and Mr van der Heide

Art & Photography Exhibition: Bigger and Better than ever!

On the 26th of November, Marsden High School's art department hosted their annual art and photography exhibition. This exhibition is a 15 year MHS tradition and showcased all work created throughout this year. The art and photography displayed ranged from masks created by year 7 students all the way through to the year 12 major work projects for the HSC.

This art and photography exhibition not only showcased the wonderful student works of the school but also to recognised and awarded the students who have achieved outstanding excellence in art and photography during this year.

Artworks from year 7 students included basic Photoshop modelling and expressive masks inspired by a cultural investigation into masks. Artworks from year 8 students included hybrid Photoshop artworks, sculptures and canvas artworks inspired by their Photoshop design as well as recycled media artworks. Year 9

artworks included paintings and drawings of still life which they did to express their personalities. Other works included years 9 and 10's elective photography work, more visual masterpieces from year 10, year 11's Roman torso body sculptures, year 12's major photography and art work masterpieces for their HSC and many more.

This year's art and photography exhibition at Marsden High School was the most successful exhibition so far. It was crowded with teachers, students, parents, friends and other special guests such as Ryde Rotary Club Presidents Adrian Hallett and Kalma McLellan (pictured right). Hard work was put in to set up the artworks by the dedicated art teachers and students who managed to transform the school's library into a stunning exhibition space simply with rudimentary hessian curtains. This awesome exhibition was the very best so far and was surely an astonishing event to remember.

Pop to Popism – Excursion to the Art Gallery of NSW

On the 28th of November the Year 9 Art class made a visit to the NSW ART Gallery in order to expand their knowledge on Pop art which has been studied in class. The journey began on a warm Friday morning when the class made their way to The Art Gallery of New South Wales, located in The Domain in Sydney accompanied by their art teacher Mr Simaitis.

We began our excursion by looking at some stunning pop art paintings and sculptures. We had the opportunity to observe and examine artworks created by extraordinary artists such as Roy Lichtenstein and Andy Warhol. We were lucky enough to observe artworks from the early 20th century, for instance we were able to see the astonishing artwork of "Marilyn Diptych" created by Andy Warhol. It was not just viewing artworks; many of our students also got

the chance to play the game "Twister" to perform some physical activities and relax their eyes.

After that we enjoyed our lunch in the Botanical gardens while chatting with our fellow classmates about our favourite artworks and the story behind them. We then began walking across the beautiful Botanical Gardens to observe the natural habitats within the park and gain ideas as artists for our works of art. We had the opportunity to experience some tangible art by being able to stop and draw close-ups of natural surroundings such as trees, leaves and the beautiful flowers located within the garden. After that we walked beside the water to the Opera House where we had the chance to sit under the shade of trees and expand on our drawing skills by drawing the beautiful scenery as long- distance drawings.

We ended this extraordinary journey by enjoying some ice-creams and cooling down in the warm afternoon. We are certain that this was unique excursion for us as young artist to experience some exceptional and significant works of art.

Nastaran Okati & Hari Park

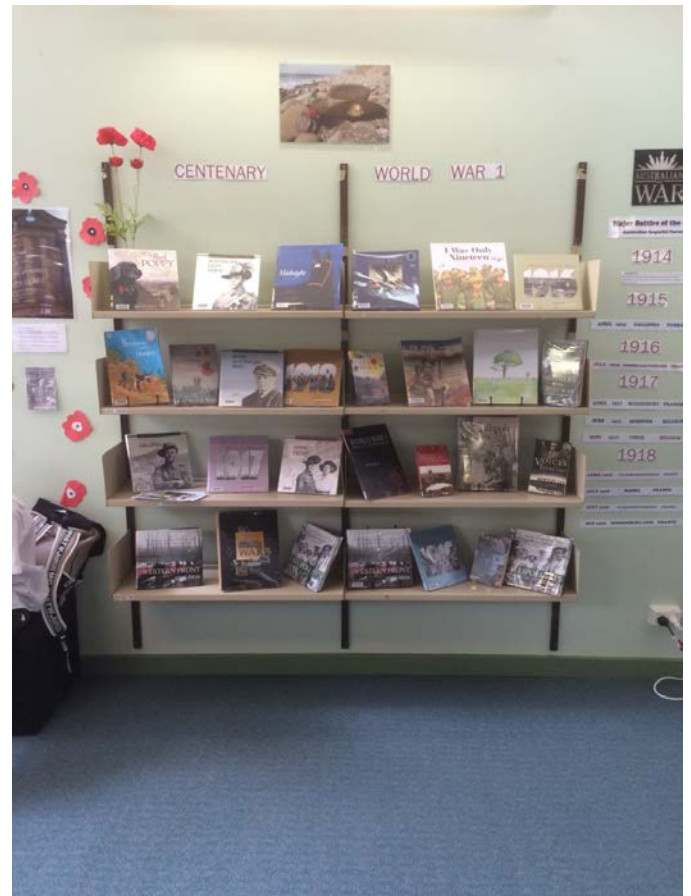

Library News

This term in the Library we have celebrated many events and witnessed many students finish their assignments and preparing for exams.

One of the main displays this term was our Remembrance Day display (pictured) that Mrs Knight put together. We have left this up as perhaps students may like to borrow one to read over the holidays.

As we remember 100 years of Australia's involvement in World War 1, 1914 to 1918. All books on display can be borrowed for the holidays. We were very lucky to be given a large donation of books from the Department of Veterans Affairs which catalogue battles and regiments that Australian's took part in. Come in and have a look if you haven't already.

Library Volunteers Excursion

This year students who volunteer their own time in the library were rewarded with an excursion to the NSW State Library. We all travelled in by bus and walked through Hyde Park to learn more about the Mitchell Wing of our State Library.

It was very exciting to find old fossils and walk into the beautiful Reading Room before checking out all the exhibits on at the moment: 'The Lost Diggers of Vignacourt' and 'Shopkeepers of Newtown' as well as the many permanent displays.

Library Volunteers

The exhibition dress up box for WW1

Reading Room

Library Monitor Excursion

The excursion was an enjoyable and educational experience and taught us things that most of us were not aware of. We all enjoyed exploring and discovering the different exhibits at the library and we all look forward to going. One of the things I enjoyed most, was actually being able to step into the library and take a quick look at the books in stock. Unfortunately we weren't able to read them, but all of us left the library feeling that our long bus drive was well worth it. All in all, the experience was fantastic and everyone thoroughly enjoyed themselves.

Written by Rachel & Saba, Year 9

Remember to come and borrow some books for the holidays. We have many new release novels, hobby and non fiction interest books for you to borrow.

The Library Team wish you a fantastic holiday and look forward to hearing all about your reading on our return in 2015.

Mrs Knight and Ms Langelaar, Teacher Librarian.

Being Sun Smart

Protect the skin you're in with the free SunSmart App. Overexposure to ultraviolet (UV) radiation causes wrinkles and skin and eye damage, ultimately leading to skin cancer. Protect the skin you're in with the SunSmart app for iPhone and Androids.

The SunSmart app lets you know when you do and don't need sun protection, making it easier than ever to be smart about your sun exposure all year.

How does it work?

Download the app and select your location in Australia.

Set up a sun protection alert and receive daily reminders of the times of day sun protection is required.

Select to receive the alert at the time of your choice or at the exact time the UV is forecast to reach a level that can damage your skin and eyes.

Use the sunscreen calculator to find out how much sunscreen you need to apply, taking account of your size and clothing.

Features

Sun protection times > Lets you know when you do and don't need sun protection for any location in Australia.

7 day weather forecast > Check the weather for the week ahead.

Alert function > Personalise the alert function to remind you of the daily sun protection times.

Vitamin D tracker > Find out if you are getting enough UV exposure for vitamin D.

Sunscreen calculator > Find out if you are using enough sunscreen.

MARSDEN HIGH SCHOOL

Students are leading way for robot revolution

**DAY SHOWS
OFF FUTURE
OF TOP TECH**

Matthew Connellan

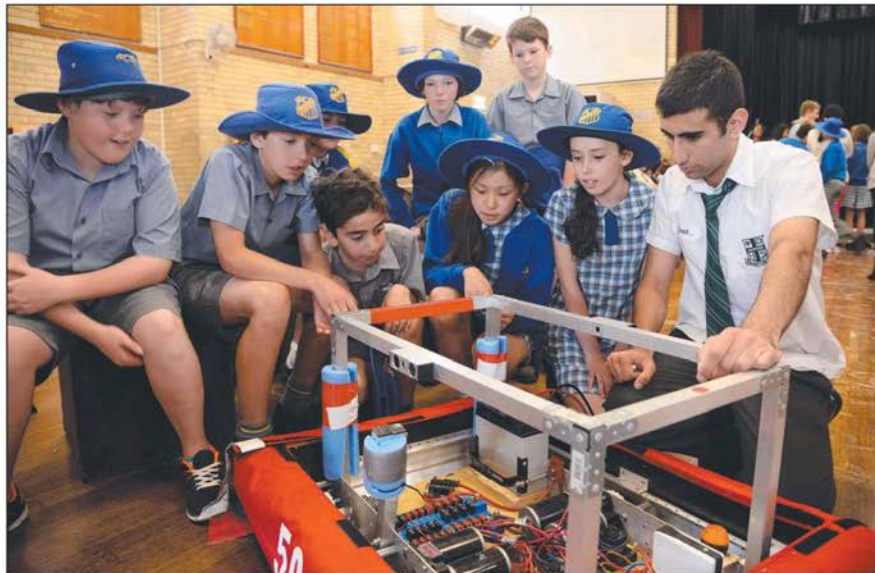

IT WAS a look into the future at Marsden High School as they hosted robotics day.

Around 100 students from a variety of local and nearby primary and high schools converged on Marsden High for the day, including staff and students from Ermington Public School, Normanhurst Boys High, Blacktown Girls High and Blacktown Boys High.

Robotics is a rapidly growing field of study that which aims to combine the fields of technology, computing and problem solving.

Marsden's robotics day was an opportunity to demonstrate the progressive nature of technology in education, and to cement the co-operation between primary and tertiary education sectors.

The robotics day was dreamt up earlier in the year when Marsden High competed against local and international teams in the

Marsden High held a robotics day involving more than 100 teachers and students from other schools.

Picture: ELENOR TEDENBORG

Duel Down Under robotics event.

The school's P & C funded the purchase of the components of their first robot, which was a very basic model but was nevertheless built and programmed to compete at the event.

It sparked an interest that culminated in hosting the day.

Engineers from Macquarie University began the day with an introduction to robotics, which was followed by student workshops for the rest of the day.

The students were bright-eyed and bushy-tailed as they learnt to build, modify and program robots.

Marsden High's head of mathematics Nicole Bren-

nan said that the day was a great success.

"It was our first time doing it. It was a way of promoting working together to promote an extra-curricular program," she said.

"It was successful as a starting point, but we know we can improve on it and we'll do another one next year."

Canteen Supervisor - Eastwood Public School

Eastwood Public School has a rich, culturally diverse population of 850 students. Our school canteen is run by the P&C. We are seeking a Canteen Supervisor for 8.30am - 2.30pm daily, up to 5 days a week (job share possible). \$25.23 P/H. Applicants must have previous experience managing a school canteen or equivalent food industry experience, have strong organization and communication skills and the ability to engage well with students, the school community, teaching staff, paid canteen staff, volunteers, the P&C and canteen sub-committee.

The Canteen Supervisor is responsible for high quality customer service, planning & organizing daily operations and ensuring a nutritious food service, with strict adherence to food safety laws. S/he is also responsible for purchasing & stock control, cleaning, record keeping, cash management & security, supervision of casuals & volunteers.

Enquiries call Duncan 0431 452 862.

Applications to Eastwood Public School, Rowe St Eastwood 2122 or email pc@eastwood.nsw.gov.au by 5pm 17th December

The 2realise **brave** program empowers young people by improving their physical and mental wellbeing, so they can be more resilient and reach their potential.

End of School - Splash into Summer Party!
